PROFESSIONAL SUMMARY

AI-focused Computer Science Engineering graduate with hands-on experience in AI/ML, web development, technical support, software testing, ERP implementation, and client-facing technology solutions. Proficient in Python, machine learning frameworks, APIs, JavaScript, React, Next.js, Node.js, and databases. Experienced in building and deploying production websites, AI-based applications, and business solutions while working directly with clients and cross-functional teams.

TECHNICAL SKILLS

Programming: Python, Java, PHP, JavaScript

Web Development: HTML, CSS, JavaScript, React, Next.js, Node.js, Flask

AI / Machine Learning: TensorFlow, PyTorch, Scikit-learn, Keras, OpenCV

Databases: MySQL, MongoDB

APIs: OpenAI API, Judge0 API

Tools & Platforms: GitHub, VS Code, Google Colab, Jupyter Notebook, Postman, Vercel

PROFESSIONAL EXPERIENCE

Yugvex Tech Solutions — Founder / Freelance Software Developer | 2025 – Present

- Deliver custom websites, e-commerce platforms, ERP/CRM solutions, and SaaS applications based on client requirements.
- Develop and deploy production-ready web applications using HTML, CSS, JavaScript, React, Next.js, Node.js, and databases.
- Manage end-to-end project delivery including requirements gathering, UI/UX implementation, SEO, security, testing, deployment, and maintenance.
- Manage GitHub repositories, Vercel deployments, domain/DNS configuration, and production troubleshooting.
- Work directly with clients to translate business requirements into scalable and user-focused digital solutions.
- Generate leads through cold calling, track sales activities, and support client acquisition.

Twinkle IT Solution Pvt. Ltd. — Technical Support Engineer / Business Development Executive | Aug 2025 – May 2026

- Designed dynamic websites according to client requirements and supported implementation activities.
- Provided end-to-end technical support through email, phone, remote sessions, and on-site visits while resolving issues within SLA timelines.
- Collaborated with development, QA, and product teams to escalate complex issues and support feature rollouts.
- Identified recurring technical issues and recommended process and product improvements.
- Generated and converted leads by engaging schools and colleges, understanding requirements, and presenting ERP solutions.
- Conducted ERP demonstrations for principals, administrators, and management, explaining modules and business benefits.
- Coordinated with technical and implementation teams to support ERP onboarding and successful client deployment.
- Prepared proposals, handled pricing discussions, maintained CRM records, and tracked sales activities.

Marks Technosystem Pvt. Ltd. — Product Testing Intern | May 2025 – Aug 2025

- Performed software testing to validate product functionality, usability, and reliability.
- Identified, documented, and reported defects to improve system performance and product quality.
- Validated software features and verified issue resolutions in collaboration with the testing team.

PRADO Pvt. Ltd. — Admin / IT Assistant | Aug 2023 – May 2025

- Maintained IT infrastructure, systems, servers, backups, email, printers, and related devices in accordance with organisational requirements.
- Supported system security by helping prevent unauthorised access to computers and programs.
- Installed required software and performed routine device maintenance and troubleshooting.
- Maintained website and social media content and supported administrative and HR activities.
- Prepared quotations, purchase orders, invoices, study plans, and study report templates.
- Resolved technical and non-technical issues and supported departmental requirements.

PROJECTS

AI-Based Interview Evaluation System | Python, OpenAI API, Flask, HTML, CSS

Developed an AI-powered interview preparation platform covering aptitude, technical, and HR rounds; integrated APIs and structured logic to simulate realistic interview workflows.

Client Web Development Projects | React, Next.js, JavaScript, HTML, CSS, Node.js, Vercel

Developed and deployed websites for organisations and businesses, including Chhatrapati Shahu Maharaj Sanstha, Naresh Pharmacy, Shri Hanuman Super Market, and Govindraj Watch Shop.

Portfolio Website | HTML, CSS, JavaScript

Designed and developed a responsive personal portfolio to present technical skills, projects, and contact information.

Educational Website Projects | HTML, CSS, JavaScript

Developed dynamic websites for educational institutions and handled client requirements, deployment, and maintenance; projects include sdsmlawcollege.in and gpawasari.ac.in.

EDUCATION

B.Tech — Computer Science Engineering — Nutan College of Engineering and Research, Pune | 2022 – 2026

HSC — Janta Junior College, Nanded | 90.17%

SSC — Blue Bells English Medium School, Nanded | 91.80%

RELEVANT COURSEWORK

Machine Learning | Data Structures & Algorithms | Artificial Intelligence | Database Management Systems | Software Engineering | Web Development

CERTIFICATIONS

- Python Programming — AI Adventure Pune
- Frontend Development — LinkedIn Learning
- Communication Skills — TCS iON

ACHIEVEMENTS

- Developed and deployed an AI-based interview evaluation system.
- Built and deployed live client websites for businesses and organizations.
- Supported ERP implementation, product demonstrations, and client onboarding.
- Improved software quality through structured testing, defect reporting, and debugging.
